

## University of Manitoba Online Transfer Credit Resource

Welcome to the University of Manitoba Online Transfer Credit Resource for prospective or newly admitted students to the University of Manitoba.

External courses are reviewed on a course-by-course basis and courses are assigned University of Manitoba equivalency, where applicable. Where a direct equivalent does not exist, a course may be awarded general (unallocated) credit.

The following factors may affect course approval:

- a course may not fit a program.
- some programs may require a minimum grade in order to grant credit.
- some programs may only consider courses completed within the last ten (or fewer) years.

The Online Transfer Credit Resource includes active course evaluations. Applicable courses not appearing would require course evaluation to determine credit equivalency and program approval.

Please refer to the appropriate year of course completion when verifying equivalency. If an assessment does not exist for the year of course completion, a more recent evaluation may be utilized, where appropriate.

If you are unsure of an institution's location, or you are seeking equivalency information for **Advanced Placement** or **International Baccalaureate** courses, select "Unknown, Show All" for a complete listing.

### Return to Main Page to Select a Different Student Type

The University of Manitoba Online Transfer Credit Resource is intended to provide course transfer information for prospective applicants, newly admitted students and University of Manitoba students seeking to enhance their studies with approved courses taken on a letter of permission or student exchange program.

While course equivalencies are generally valid for five years from period of last assessment, course assessments are subject to reconsideration at any time. A course excluded from the database does not necessarily indicate transfer credit will not be awarded; a detailed course outline/syllabus may be required at the point of application for Admission or letter of permission to determine whether credit may be granted.

#### Step 3: Select Transfer Credit Equivalent Subject
